

We have seen students, teachers, ATL InCharge & Schools struggle in Atal Tinkering Lab, Sometimes the teachers are clueless about where to start & face difficulties in introducing the ATL Concept in conjunction with the school curriculum.

We at TechKnowSkola decided to help all the ATL Schools for **Free**

We have taken a small initiative that includes **"one project per week"**.

We will share one project sheet every week on Monday filled with fun & Learning.

- Build that project in your Atal Tinkering Lab. 😊
- Show us on #Social_Media 😊
- Use Tag : #techknowskola #techmonday #oneproject @techknowskola
- Who can join - All Students from class 6th - 12th

At TechKnowSkola the technology school by engineers & innovators, we understand that the decisions we make today have a huge impact on future leaders. That is why we strive to make sure our work reflects such high standards.

"Continuous learning is the bare minimum for success in any field."

How to proceed

1. Every Monday we will share one project with you over Whatsapp
2. Build that project in your ATAL TINKERING LAB before Friday (of the week).
3. Share your project on social media & don't forget to use these tags
#techknowskola #techmonday #oneproject @techknowskola
4. Every Saturday we will announce 1 winner (Judging criteria- who have done something creative with the project or used that project in the real world)

The winner will get mentoring sessions from our #Experts.
